Lahore, Pakistan

PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate (CGPA: 3.75) with hands-on experience building full-stack AI-powered applications using MERN stack, LangChain, Gemini API, Flutter, and Firebase. Proven leadership as Marketing & Outreach Team Lead at AWS Cloud Club Riphah. Passionate about generative AI, data science, and scalable software engineering.

EDUCATION

B.S. in Computer Science — CGPA: 3.75 | Riphah International University *Lahore, Pakistan* | Feb 2024 – Dec 2027

- Relevant Coursework: Data Structures & Algorithms, OOP, Database Systems, Software Engineering, Computer Architecture, Web Programming, Linear Algebra, Analysis of Algorithms, MVC

FSc (Pre-Engineering) | Punjab Group of Colleges *Lahore, Pakistan* | Sep 2021 – Aug 2023

PROFESSIONAL EXPERIENCE

Marketing & Outreach Team Lead | AWS Cloud Club Riphah *Lahore, Pakistan* | May 2025 – Present

- Lead cross-functional team to design and execute strategic marketing campaigns, growing club membership and digital engagement across social platforms.
- Coordinate outreach initiatives to promote cloud computing education, increasing workshop attendance and community participation.

Event Management Head | AWS Learning Club Riphah *Lahore, Pakistan* | Nov 2024 – Present

- Spearheaded planning and execution of 10+ workshops, seminars, and hands-on AWS training sessions for 100+ student members.
- Collaborated with core team to streamline event logistics, ensuring smooth delivery of technical learning experiences.

Customer Support Specialist | Mindbridge *Lahore, Pakistan* | Jun 2024 – Oct 2024

- Delivered high-quality technical and customer support, developing strong communication and problem-resolution skills in a professional environment.

PROJECTS

ContextCarry | MERN Stack, Gemini API, Chrome Extension MV3, JWT, MongoDB Atlas | contextcarry.tech

- Built and deployed a full-stack SaaS platform that compresses AI conversations into portable, provider-neutral context capsules transferable across Claude, ChatGPT, and Gemini.
- Engineered a Chrome Manifest V3 browser extension with content scripts to auto-capture conversations from AI platforms and sync them to a user's capsule library.
- Implemented production-grade auth (JWT access/refresh tokens, bcrypt, rate limiting), admin analytics dashboard, in-app notifications, voice-to-capsule pipeline, and capsule sharing via email.

Unmapped | React, FastAPI, Python, JavaScript | github.com/umarahad2005/unmapped_mit_hackathon

- Designed and developed a full-stack web application for MIT Hackathon, featuring a React frontend and a FastAPI (Python) backend for high-performance API serving.
- Architected a decoupled frontend/backend system enabling rapid iteration; leveraged Python's ecosystem for AI/data processing pipelines integrated with a modern JS UI.

BitBrainiac | MERN Stack, LangChain, Gemini API | bitbrainic.dev

- Built and deployed a full-stack AI chatbot leveraging LangChain orchestration and Google Gemini API, serving real users at production scale.

Talent Bridge | Full Stack, NLP, Agent-Based Architecture

- Developed an AI-powered agent-based job-matching platform that processes natural language prompts to surface real-time job listings tailored to user profiles.

Student Course Registration System | C++, DSA, OOP

- Engineered a console-based registration system utilizing linked lists and OOP principles to manage course enrollment with $O(n)$ traversal efficiency.

SurveyMaster | *Java, JDBC, Swing*

- Built a cross-platform desktop survey application with a Swing UI and JDBC backend, applying core OOP design patterns for maintainable architecture.

Hajj & Umrah Management System | *MySQL, Relational Database Design*

- Designed a normalized relational DBMS to manage pilgrim records and packages, implementing complex SQL queries and relational integrity constraints.

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, Dart, SQL, HTML, CSS

Frameworks & Libraries: React, Node.js, Express, Flutter, LangChain, Gemini ADK, Java Swing

Databases: MongoDB, MySQL, Firebase Firestore, JDBC

Tools & Platforms: Git, GitHub, AWS Cloud, Vercel, Firebase, Render

Concepts: Data Structures & Algorithms, OOP, REST APIs, Generative AI, Prompt Engineering, Agile, Agent-Based Architecture

CERTIFICATIONS

Generative AI: Prompt Engineering | ChatGPT Prompt Engineering for Developers | MongoDB Basics for Students | C++ Essentials 2 | Problem Solving (Basic) – HackerRank
